Concepts: Responsive Design, REST APIs, DOM Manipulation, State Management, UI/UX Design

Projects

Developer Portfolio Website

- Designed and developed a modern personal portfolio with responsive UI and smooth animations
- Showcased projects, technical stack, and developer profile in a clean layout
- Built using React.js / Next.js inspired architecture and deployed on Vercel
- Live Demo: portfolio-mu-indol-4mwj0fgdsx.vercel.app

Interactive 3D Landing Page

- Built an immersive landing page experience using Spline 3D integration
- Implemented responsive sections with modern UI effects and smooth interactions
- Optimized layout for desktop and mobile viewing
- Live Demo: 3d-landing-page-using-spline.vercel.app

Task Management Web App

- Created a dynamic task manager with add, update, and delete functionality
- Implemented real-time DOM updates and clean user interaction flow
- Focused on usability and responsive design
- Live Demo: to-do-list-qfvp.vercel.app

Strengths

Strong self-learning ability and consistency in development practice

Problem-solving mindset with focus on practical implementation

Passion for frontend engineering and modern web technologies

Quick adaptability to new frameworks and tools
